

VERMEC Heavy Duty 28.5mm Drive Dog

Can be mounted in two ways either with the Morse Taper directly into the lathe spindle or by using the cylindrical hold in a chuck to avoid damage to the Morse Taper. The point is hardened and removable.

Available in Morse Taper 2 size

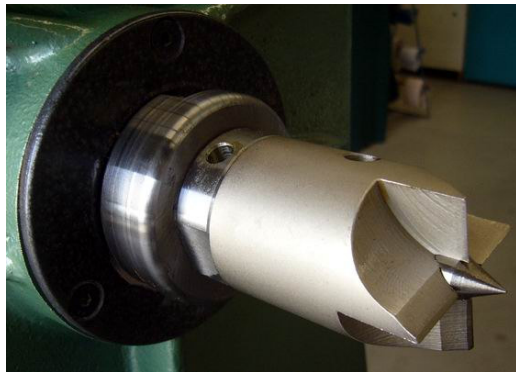

Code: ACC-189 - \$67.00

VERMEC 50mm Drive Dog

Suitable for larger work. Comes with a insert available in a variety of thread sizes so can be used on most woodturning lathes. Point is hardened and removable.

Code: ACC-200 - \$89.00

Includes insert - available in most lathe spindle thread sizes

Removable Hardened Point
